

End of semester info about final grades, corrections, etc.

Final Grades: I am correcting your work from now until Fri Dec 29. I will submit grades to the Registrar by Fri Dec 29 4pm.

Work deadline: Get all your work done by Fri Dec 22. I will accept late Homeworks. And if absolutely necessary, you can email me to request 1-3 more days after that date.

Corrections and grades: Look for corrections to the tests and homework assignments in Brightspace and in ECC email. Find corrections and grades in the Grades area or drop box area. (Your gradebook in Brightspace is in the menu item at the top of the page called **Student Information**. I will also post a final Excel gradebook in a prominent module or area of the content area of Brightspace if needed, as well as email it to you.

List of 8 Homeworks. ****I need your best 5 HWs.**

HW1: Tutorial 1

HW2: Review Assignment of Tutorial 1

HW3: Tutorial 2

HW4: Review Assignment of Tutorial 2

HW5 : Tutorial 3 & 4 – **NOT GRADED**

HW6: Felke book (Tutorial 6, our book) (tables)

HW7: Silly Form (Tutorial 7)

HW8: Embed video

HW9: Tutorial 9

I anticipate doing the corrections and inputting the scores into Brightspace by Fri Dec 29, but I may not attach the full corrections in Brightspace (or in an email to you) until as much as 7 or so days after that. (I may ask that our Brightspace course be available longer, if necessary. Access usually ends 2 weeks after the end of a semester.)

Figuring your course grade

Your final course grade. It will be the weighted average of your test average, homework average and discussion forum. For the test average, I will double your highest test score. For your homework average, I will take your best 5 of 8 Homework scores. Here is a page of the syllabus.

13. Testing/Mean of Evaluation

points	Evaluation category
40%	Homework
55%	Tests
5%	Discussion forums

Each item and test will be scored based on 100 points. To figure your grade:

- Drop your lowest 3 homework scores. Average the rest together. Multiply by .40.
- Double your highest test score. Then add average these 4 test scores. Multiply by .55
- Multiply your discussion forum score by .05.

Add all 3 numbers together. Convert as follows:

A- 88 to 89; **A** 90 to 100

D- 55 to 57; **D** 58 to 62 **D+** 63 to 65

B- 77 to 79; **B** 80 to 84; **B+** 85 to 87

F 54 and below.

C- 66 to 68; **C** 69 to 73; **C+** 74 to 76

****If you missed a test, email or see me to arrange to make it up ASAP.** And again, If you need a day or two after the semester ends to get work done, let me know and I will try to work with you.
