

Homework #9

Tutorial 9: Getting Started with JavaScript

DUE: Fri Dec 22 11:59pm

Complete all of Tutorial 9.

Use the files in the data files folder called *data files/html9/tutorial*. Make a copy of the tutorial folder so that you have an original copy to go back to, if needed. Complete the steps at the computer using Komodo Edit or other editor of your choice. You will be doing ALL of Tutorial 9. As you read, complete the **orange**-colored steps in the MindTap reader e-text and the steps in the **brown** boxes in the physical book. For some e-texts, the steps you complete are **black**-colored steps.

After completing Tutorial 9, rename its folder called tutorial to **tut9_yourlastname**. Be sure all original and modified files are in the folder. Zip, and drop it into **HW9 Tutorial 9 Drop Box** in Brightspace.
