<u>Worth more points than Part 1</u> ~6-8 points each
Refer to Appendix C (tags) and Appendix D (styles and values)

1. Code the following list using the appropriate tags. Code "Ways to describe a set:" as a paragraph.
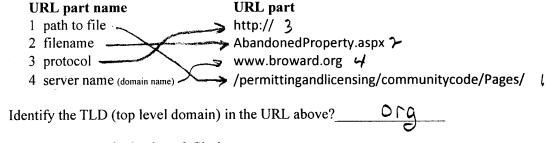

Ways to describe a set:

- Set builder notation
- Roster notation
- Set described in words

```
<p> Ways to describe a set </p>
<ul>
    <li> Set Builder notation </li>
    <li> Roster notation </li>
    <li> Set described in words </li>
</ul>
```

2. Write the code to create a hyperlink to the ECC home page: www.ecc.edu and make the visible hyperlinked phrase " Erie Community College".

```
<a href="http://www.ecc.edu"> Erie Community College </a>
```

Match the part of the URL (Uniform Resource Locator) below with its correct part name. *Draw a line from each part name to its part.*

http://www.broward.org/permittingandlicensing/communitycode/Pages/AbandonedProperty.aspx

URL part name	URL part
1 path to file	http:// 3
2 filename	AbandonedProperty.aspx 2
3 protocol	www.broward.org 4
4 server name (domain name)	/permittingandlicensing/communitycode/Pages/ 1

Identify the TLD (top level domain) in the URL above? _____ org _____

What is the TLD for business? Circle your answer.
a. net   b. gov   c. uk   (d.) biz
