Homework #2
Complete the Review Assignment in chapter Tutorial 1
DUE: Fri Oct 6 11:59pm

Instructions:

Complete **Review Assignment in Tutorial 1** on pp71-73 in the hard copy of the book (and some e-books), and section 1-24a in the MindTap e-text. There may be a typo in Step 19. To fix it, change the word *article* to *aside* in the first line of the step. That is, it should now read, *"Within the **aside** element, do the following"*. Please note that aside element is nested inside article element.

Use Komodo Edit or other editor of your choice. Use the files in the folder called data files/html01/review. (data files: mp_index_txt.html, mp_menu_txt.html, p_events_txt.html, etc.) Before you start, it is a good idea to make a copy of the tutorial folder so that you have the original files just in case you need them.

After completing Review Assignment for Tutorial 1, rename its folder called review to **review1_yourlastname**. Be sure all original and modified files are in the folder. Zip, and drop it into **Review Assignment 1 Drop Box** in Brightspace. (Note: There is a simulation coding exercise of the **Review Assignment** in the Cengage MindTap course, but you will <u>not</u> be doing that. And besides MindTap is not required.)
